

1 **ABSTRACT OF THE DISCLOSURE**

2 A retractable extension cord housing with a low-profile plug holder
3 retractably houses an extension cord in a hollow body and has an external
4 surface. The plug holder comprises a plug recess, a cord groove and an optional
5 retaining tab. The plug recess and cord groove are formed in the external surface
6 to hold a low-profile plug and a section of the extension cord attached to the
7 low-profile plug. Therefore, the entire retractable extension cord housing has an
8 appearance that is neat and clean.
